Experience

Sr. Product Designer

Jan. 2026 - Today

@HelloFresh → Consumer Acceleration | Berlin

- First designer at HelloFresh to merge code into production.
- Built a suite of Claude Code agents for UX covering prototyping, AI-driven testing and design-to-code for React and React Native.
- Defined the UX Quality workflow to keep AI-generated work aligned with Zest (the Design System), and established biweekly UX AI Office Hours for designers, researchers, engineers and PMs.
- Scaled the workflow to 26+ designers across 9 brands, replacing static handoffs with designer-owned implementation.

Sr. Product Designer

Sep. 2021 - Dec. 2025

@HelloFresh → The Pets Table | Berlin

- I was the sole designer working for HelloFresh's new pet food brand for 3 years and was able to launch and scale the product, creating features for both growth and retention.
- We used our *White Label* design solution to scale fast and steady and the role ranges from UI to Strategy Definition and Research Initiatives.
- I worked very closely with Data, in order to improve metrics like Conversion Rate and Average Order Rate.

Before that, I was working to improve the meal choice experience of other HelloFresh brands across the globe, like Factor, EveryPlate and Chefs Plate.

Product Designer

Dec. 2020 - Aug. 2021

@MVP Factory | Berlin

- At MVP Factory, I established foundational designs for MVP app and website solutions.
- I conducted workshops with clients and structured and presented user research insights.

Product Designer

Oct. 2019 - Oct. 2020

@finleap → Joonko | Berlin

- Developed wireframes, prototypes, and defined flows for the Consumer Loans vertical within a cross-functional team, using Atomic Design and Shared Design Libraries to create the UI and conduct user testing for feedback incorporation.
- Facilitated multidisciplinary strategic problem-solving workshops.

Product Designer

Aug. 2017 - Apr. 2019

@ília digital | Brasília, Brazil

- Crafted User Flows, Wireframes, Prototypes, and UI for sectors like finance, health, and automotive.
- Conducted UX Research using Interviews, Journey Maps and Usability Tests in Agile Scrum teams.
- Reviewed developers' work and collaborated with stakeholders on product strategies.

Softwares

AI
Claude Code

UX/UI Design & Research
Figma, UserTesting.com, Dovetail, Sprig

Graphic Design
Photoshop, InDesign, Illustrator
